My Texas CEF, also known as Online Access, is being upgraded in order to enhance security and protect your financial information beginning in May 2013. What does this mean for you, the investor?

- No more picture & phrase to be confirmed
- No more challenge questions
- No longer do you have to register your computer
- A more secure and behind the scenes process to validate your device, username and password

So, how does this work? When you use a device that you have not logged in on in the past, you will be asked to validate your identity through a one-time security code. You may choose whether to validate it by phone call or by text message. For this reason, we must make sure that we have your correct home/cell phone numbers in our database.

Please complete the bottom of this form and return it to our office.
Questions? Please call our office at 888-951-1233 or send us an email at invest@texascef.org
